

#1LSD “One Love Song A Day” Decentralized Social (Media) Link

2021-10-05

<http://bit.do/1LSD>

#1LSD is a novel yet ubiquitous Decentralized Social Media App (Decsma) where users can share any social media link, track it and MONETIZE it. #1LSD was first coined as an abbreviation for “One Love Song A Day”. In reverse, it now means “Decentralized Social (Media) Link”. The name highlights the significance of “social” relationships, a departure from the “old” Internet, whose primary focus was “data”.

“One Love Song A Day” is a simple idea that everyone can understand. #1LSD is a parody and pun that everyone knows that most conservatives will hate.

Under the hood, “#1LSD One Love Song A Day” allows YOU, individual users, to:

(A) TRACK the links that you share with your friends and families on ANY social media platform;

(B) MONETIZE such personal relationships and sharings.

These benefits above may seem ordinary. However, just like the Communist Revolutions in the early 20th century, which aim to “redistribute a fair share of workers and farmers rewards (wages or sales of agricultural produce)”, they sound ordinary in writing, but literally changed the course of history and the fates of literally billions of human beings.

Features

1. Allow users (who have not set up Duniix server node) to download every transaction as JSON.

FIBONACCI META MVC

A philosophical generalization of Newton’s third law is that,

For every problem in nature, there exists (at least) one solution.

The solution to all the problems we face today in 2021, during the unprecedented COVID19 pandemic, shall be known as:

FIBONACCI META MVC

MVC (Model View Controller) is the software architecture that every programmer on Earth uses to create mobile and web apps.

Unfortunately, they have been brainwashed to use MVC to create social media apps that are CENTRALIZED.

META MVC is the solution to make MVC DECENTRALIZED.

FIBONACCI is the name of the mathematician who studied the breeding pattern of a pair of fictional rabbits (male and female), which leads to the now legendary series:

1, 1, 2, 3, 5, 8, 13, 21, 34, 55,

We prefix META MVC with Fibonacci to imply that, each of us just need to convince one person to download and install META MVC source code to our mobile phones or personal computer, one at a time, then the Decentralized MVC network called DUNIIX (Decentralized UNIX, a pun on UNIX), will grow like a Fibonacci series.

When the size of DUNIIX decentralized network grows, each member in the DUNIIX network will start making money, competing directly with MAGA (Microsoft Amazon Google Apple) for advertising fees or recommendation commissions, depriving the capitalist masters of their most important sources of income.

This is how we can fight back, without blood and violence.

Need someone to make a YouTube video of the above.

I just need one person to download the code and install it.

Simplify the method. Then others will believe.

Newton's third law extension: Mathematics is the laws of nature. For every problem in nature, there must exist a solution. Fibonacci MetaMVC is the solution to all the problems we face today.

Fibonacci MetaMVC is a cool name!

FIBONACCI META MVC

世事如棋。知之者，棋手也。不知者，棋子也。

The world is like a chess game. Those who know the rules are the players.
Otherwise they are the pieces.

By 2021 A.D., the (centralized) social media have made (LO)USERS so dumbed down that, any serious opinion will either be ridiculed or drowned by noises into oblivion.

The only form of writings or pieces that can be remembered in a disinformation era would be parodies.

So is this writing.

**** **

Decentralization = 农村包围城市

Communist Revolution in 20th century is lesson for Decentralization in 21st century.

**** **

Starting from January 2020, the world has been engulfed by the COVID19 pandemic. Along with it, the (centralized) social media was flooded with all sorts of opinions and comments, ranging from conspiracy theories to “no questions allowed” expert authoritarian sermons.

LAW III.

Newton, Isaac, Mathematical Principles of Natural Philosophy (trans. Motte, Andrew, revised by Florian Cajori, Berkeley, 1962), i, 13 [Google Scholar](#). In the original Latin, the law reads:

“Actioni contrariam semper & aequalem esse reactionem: sive corporum duorum actiones in se mutuo semper esse aequales & in partes contrarias dirigi.”

<https://www.cambridge.org/core/journals/british-journal-for-the-history-of-science/article/abs/third-law-in-newtons-mechanics/C3AB403A04CD4B0F7995CE24C4685BC9>

To every action there is always opposed an equal reaction; or the mutual actions of two bodies upon each other are always equal, and directed to contrary parts.

Chinese Alan (Turing) Ng from Malaysia LOL!!

Not gay but polygamy.

Lex II:

Second law of motion in original Latin

Mutationem motus proportionalem esse vi motrici impressae, et fieri secundum

lineam rectam qua vis illa imprimitur.

LAW II.

English translation of Second law of Motion

The alteration of motion is ever proportional to the motive force impressed; and is made in the direction of the right line in which that force is impressed.

<https://www.gsjournal.net/Science-Journals/Communications-Mechanics%20/%20Electrodynamics/Download/4537>

Lex I:

First law of motion in original Latin

Corpus omne perseverare in statu suo quiescendi vel movendi uniformiter in directum, nisi quatenus a viribus impressis cogitur statum illum mutare.

LAW I.

English translation of First law of Motion

Every body perseveres in its state of rest, or of uniform motion in a right line, unless it is compelled to change that state by forces impressed thereon.
